Note 1:

Applications for building permits are expected to accurately estimate the true cost of the construction. Estimated cost should reflect all of the construction costs associated with the improvement. The following will specify costs to be included and those costs which should not be included.

Costs to be Included:

Architect's fees, footings, foundations, excavation, septic systems, utilities, water, transportation and setting costs for modular buildings, and finally, the total labor, materials, and/or purchase price of the building or improvement.

Costs Not to be Included:

Purchase price of the land and surveying, subdivision costs and fees, road construction and general site improvement, appliances, and furniture.

Note 2:

Building Permit Fees may be permitted to be refunded at the rate of fifty percent (50%) of application cost if the Building Permit application is denied. See Chapter 50-10.

Note 3: Performance of Work Under Permit (Expiration Dates)

If construction has not begun within the first year from date of Permit issuance, the Permit is null and void. If construction has begun within the first year from date of Permit issuance but is not completed by the end of two (2) years from date of Permit issuance, the Building Permit must be renewed and the fee for one (1) additional year shall not exceed 50% of the original fee. After 3rd year the renewal fee will be the full fee according to the current fee schedule.
